Executive Summary

This survey is designed to document member experiences and satisfaction with the behavioral health care received by Mercy Care members. The behavioral health member survey was sent to a random sample of adult and children who had or has received services from Mercy Care. The purpose of the Adult and Child Behavioral Healthcare Surveys is to document member experiences and satisfaction with the behavioral health care they received across the following areas of care: Below is a summary of the findings.

- 82% are satisfied with the services they receive.
- 83% would tell others to use the health plan.

Background

Quality and continuous improvement are essential components of Mercy Care operational strategy. Members are encouraged to provide feedback regarding their health care and services. In an effort to promote continuous quality improvement, Mercy Care participated with a project led by the Aetna National Quality Team, which was approved by AHCCCS, to implement a member survey specific to behavioral healthcare and services. The cross-functional team represented fifteen health plans, including clinical expertise from both behavioral and physical health care services.

The resulting survey is designed to help Mercy Care better understand the experience and challenges members have in using their behavioral healthcare services. By engaging members, Mercy Care can work toward making the member behavioral healthcare experience more productive and satisfying resulting in better outcomes.

Purpose

The purpose of this survey is to solicit member feedback about their experience with behavioral health care services. The information is used to evaluate practitioner/provider performance, to identify gaps in service and other areas that are causing dissatisfaction so that action can be taken to improve the member experience with behavioral health care.

- Access to and timeliness of behavioral health care.
- Perceived outcome of behavioral health care.
- Communication with clinicians.
- Patient rights.
- Member services and assistance.
- Overall rating of the behavioral health care provider (BHCP).
- Comparisons between Adults vs. Children

Methodology

This is the first year Mercy Care has offered online surveying for the adult population, as well as traditional mail and telephone. Symphony Performance Health (SPH) programmed and hosted the survey via the secure SPH survey website. SPH sent an initial email invitation and reminder email invitation to all available Mercy Care adult members at least 18 years of age with an email address. Members without an email address and members who did not respond to the email invitations received

the survey mailing and follow-up phone calls, as applicable. Mailed surveys were sent with a postage-paid reply envelope and cover letter explaining the purpose of the survey. Survey materials were sent to all members in both English and Spanish.

SPH interviewers then conducted live telephone outreach to members who did not respond to the mailed survey. All phone surveys were conducted by live interviewers. The phone survey duration was approximately eight to ten minutes. Members had the option to complete the phone survey in English or Spanish. If a member expressed a desire to complete the survey in another language, SPH used Language Line to complete the interview in the member's requested language.

The data collection schedule was as follows:

- Initial email invitation: September 9, 2022.
- Reminder email invitation: September 14, 2022.
- Survey mailed: September 21, 2022.
- Telephone follow-up conducted: October 14 – November 4, 2022.
- Data collection cut-off: November 4, 2022.

A total of 54,241 records were received for Mercy Care, of which 43,419 were eligible for surveying. A stratified random sample of 2,000 members was selected for survey mail/phone outreach. Distribution of adult vs. child mail and phone outreach surveys include.

- Adult surveys: 1,737
 - Mental Health Services 18+ years of age
 - Substance use disorder services 18+ years of age
- Child surveys: 263
 - Mental Health Services 0-17 years of age
 - Substance use disorder services 0 - 11 years of age and 12 -17

Response Rate

6.9%; Response Rate = Number of Completed Surveys / (Members sampled for outreach – Ineligibles)

- Eligible sample received: 43,419
- Members sampled for outreach: 2,000
- Sampled members determined ineligible: 0
- Eligible members sampled: 2,000
- Completed surveys: 138 total (108 adult / 30 child)
 - 67 phone (39 adult / 28 child)
 - 62 mail (60 adult / 2 child)
 - 9 internet (9 adult / 0 child)

Response rate is defined as the total number of completed surveys divided by all eligible members of the sample. To be considered "complete" and included in the analysis, the member had to respond to the mail survey (answering at least one question) or answer at least one question in the telephone survey.

Eligible members include members available for outreach minus ineligible members. Ineligible members met at least one of the following criteria: were mentally or physically incapacitated or were deceased.

The number of completed surveys represents a statistically valid sample (90% confidence, + / - 5.6% MOE, p = 0.8, using a finite population correction factor based on the sample received, 54,241).

All calculations in this report use the “base” (shown as n = ##) as the denominator. Responses such as “Do not know” and “Prefer not to answer” are excluded from the base.

Totals reported on graphs may not be equal to the sum of the individual components due to the rounding of all figures to whole numbers.

Indicators/ Goals

The numerator and denominator for all survey questions, both Adult and Child surveys, are described below:

- Numerator: Member's ratings are measured using a 5 point scale using Strongly Disagree, Disagree, Neutral, Agree and Strongly Agree. The numerator represents the number of eligible members who responded as either Strongly Agree or Agree.
- Denominator: The denominator represents the number of valid responses collected for the measure.
- Goal: Report 2022 data

Audit Population

The survey is administered to those members who received behavioral health services as identified through three or more administrative claims for behavioral health services in the past 12 months. The 12 month time frame was June 1, 2021 through May 31, 2022. Paid and denied claims are included. A combination of diagnosis code, procedure code and provider specialty are used to identify the population. Qualifying claims have a provider which is behavioral health related, defined by using key words/terms from the provider specialty description in QNXT an integrated information management system. This includes both the primary and secondary specialties for a provider. The population is limited to members who are active at the time the report is generated. The population is further divided into age groups adults, ages eighteen and older, and children under fourteen years of age.

Eligible plan members were defined as:

- Currently enrolled adult and children members excluding children in foster care
- Members had at least three MH and / or SUD treatments / services from a BH specialist
- All ages of eligible members were included in survey

Results

Table 1 Mercy Care Adult Member Survey Responses

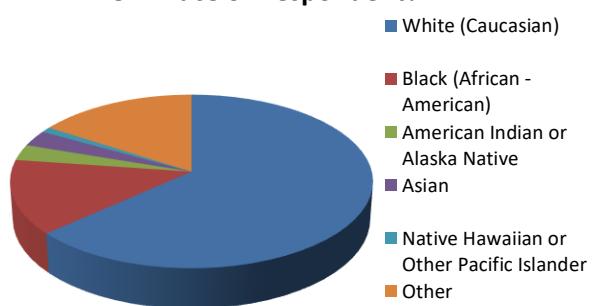

2022 Mercy Care Adult Measure	Denominator (Base)	Numerator (Top Two Boxes)	Neutral	2022 Rate
Access and timeliness of behavioral health care				
I have a Behavioral Health Care Provider (BHCP) in a good location for me.	101	85	8	84%
I can get an appointment as soon as I need it.	101	84	4	83%
Perceived outcome of behavioral health care				
My BHCP helps me get along better with family and friends.	94	69	15	73%
My BHCP helps me do better in school, work or other daily activities.	93	69	14	74%
My BHCP helps me feel better.	99	84	8	85%
Communication with clinicians				
My BHCP listens to me and understands what I say.	101	86	7	85%
My BHCP explains things in a way that I understand.	100	89	6	89%
My BHCP works on my treatment plan with my family, my care team and me.	95	63	14	66%
My BHCP talks to me about medicines, and the risks they might have.	95	79	6	83%
I see my BHCP and Primary Care Provider (PCP) at the same location. (<i>Question is yes/no. Numerator is yes responses and No Response is Neutral.</i>)	103	39	5	38%
My BHCP and PCP share info about my health and treatment plan.	92	58	17	63%
My BHCP helps me with other self-help support and community services.	97	69	15	71%
My BHCP and care team include supportive roles, such as peer support services, in my treatment options and goals.	94	68	11	72%
My provider and my care team help me get health care prevention screenings that I need.	97	75	11	77%
My provider and my care team teach me how to take care of my health.	99	78	10	79%
My provider and my care team have my health history to make the best decisions about my treatment plan.	100	81	8	81%
Patient rights				
My BHCP treats me with respect.	101	94	4	93%
My BHCP is sensitive to who I am – including my race, religion, ethnicity, gender identification, language, and/or disability.	102	88	8	86%

2022 Mercy Care Adult Measure	Denominator (Base)	Numerator (Top Two Boxes)	Neutral	2022 Rate
My BHCP cares about how my culture affects my health	90	74	11	82%
My BHCP makes sure I get my health care in a language that works for me	96	92	3	96%
Member services and assistance				
My health plan staff is friendly and helpful.	101	86	11	85%
My health plan helps me get care.	103	87	10	84%
I would tell others to use my health plan.	100	81	10	81%
Overall rating of behavioral health care provider				
I would send my friends or family to my BHCP.	97	79	10	81%
The office staff is polite and helpful.	96	78	8	81%
I am pleased with my behavioral health services.	98	81	6	83%

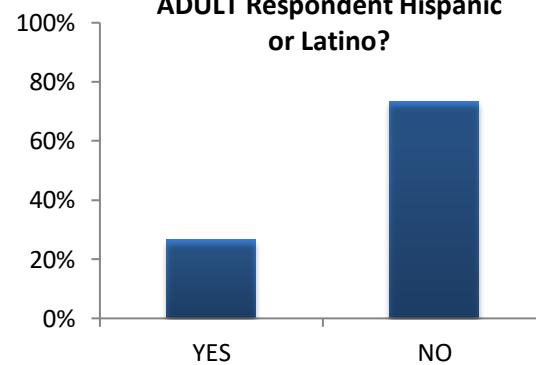

Figure 1 Mercy Care Adult Demographics

Analysis of respondent profile provides insights into the utilization of healthcare services provided. The following figures provide an overview of the eligible adult members who responded to the survey.

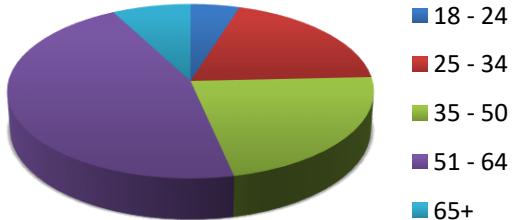

ADULT Race of Respondent?

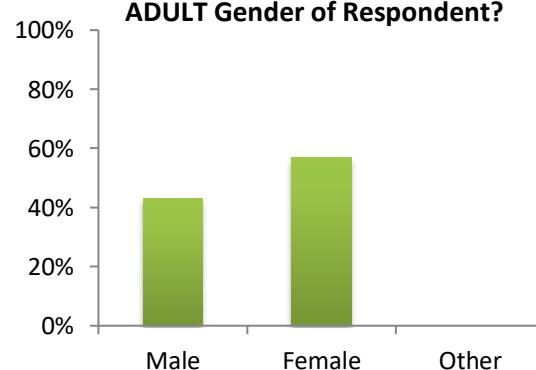

ADULT Respondent Hispanic or Latino?

ADULT Age of Respondent?

ADULT Gender of Respondent?

Mercy Care Adult Survey responses are as follows:

- Strengths:
 - I have a Behavioral Health Care Provider (BHCP) in a good location for me.
 - I can get an appointment as soon as I need it.
 - My BHCP helps me feel better.
 - My BHCP listens to me and understands what I say.
 - My BHCP explains things in a way that I understand.
 - My BHCP talks to me about medicines, and the risks they might have.
 - My provider and my care team have my health history to make the best decisions about my treatment plan
 - My BHCP treats me with respect.
 - My BHCP is sensitive to who I am – including my race, religion, ethnicity, gender identification, language, and/or disability.
 - My BHCP cares about how my culture affects my health
 - My BHCP makes sure I get my health care in a language that works for me
 - My health plan staff is friendly and helpful.
 - My health plan helps me get care.
 - I would tell others to use my health plan
 - I would send my friends or family to my BHCP
 - The office staff is polite and helpful.
 - I am pleased with my behavioral health services
- Opportunities:
 - I see my BHCP and Primary Care Provider (PCP) at the same location.
 - My BHCP and PCP share info about my health and treatment plan.

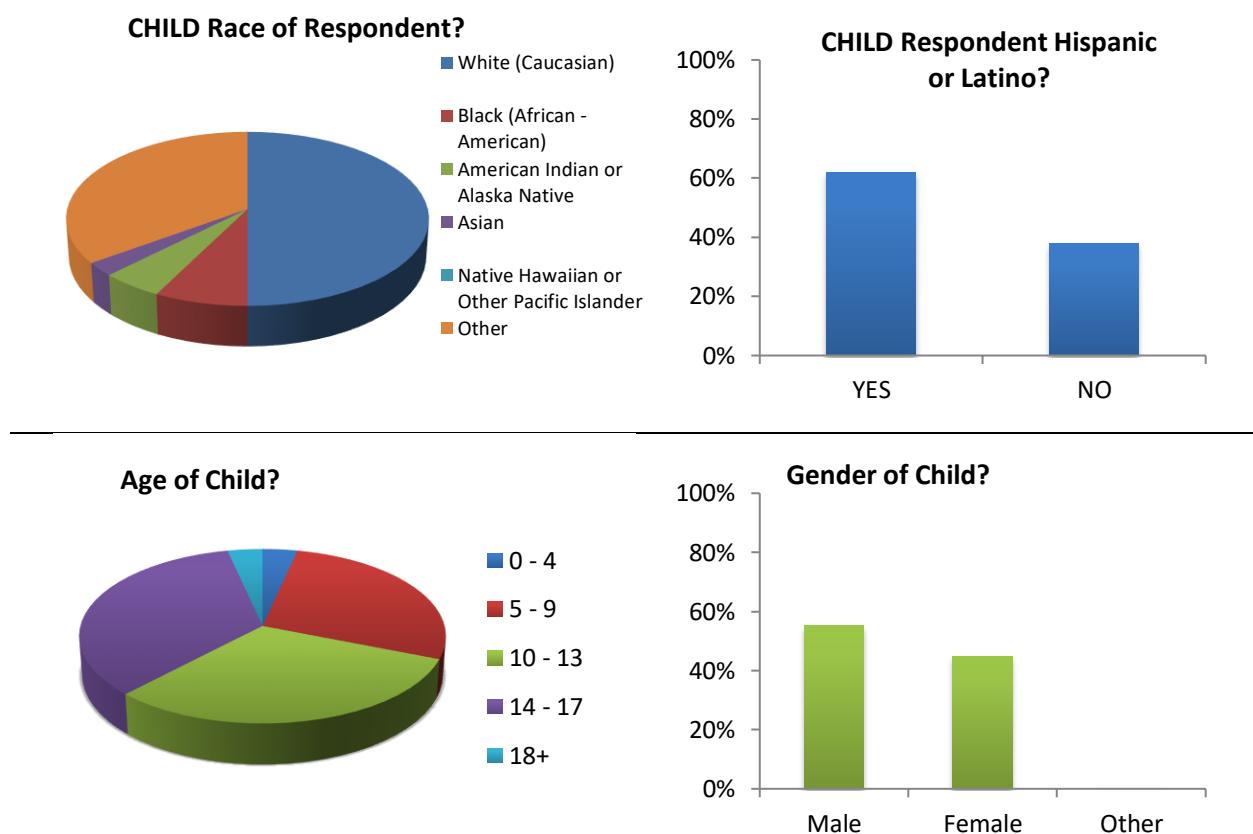

Table 2 Mercy Care Children Member Survey Responses

2022 Mercy Care Children Measure	Denominator (Base)	Numerator (Top Two Boxes)	Neutral	2022 Rate
Access and timeliness of behavioral health care				
My child's Behavioral Health Care Provider (BHCP) is in a good location for us.	30	23	4	77%
I can get an appointment as soon as my child needs it.	30	21	3	70%
Perceived outcome of behavioral health care				
The services my child gets helps him or her get along better with family and friends.	29	24	4	83%
The services my child gets helps him or her do better in school, work or other daily activities.	28	23	5	82%
The services my child gets helps him or her feel better.	28	22	6	79%
Communication with clinicians				
My child's BHCP listens to and understands what my child says.	28	23	2	82%
My child's BHCP explains things in a way that my child understands.	29	22	5	76%

2022 Mercy Care Children Measure	Denominator (Base)	Numerator (Top Two Boxes)	Neutral	2022 Rate
My child's BHCP works with my child, our family and me on a treatment plan.	29	22	5	76%
My child's BHCP talks to my child and me about medicines, and the risks they might have.	28	21	1	75%
My child sees his or her BHCP and regular doctor at the same location. (Question is yes/no. Numerator is yes responses and No Response is Neutral.)	29	11	1	38%
My child's BHCP and PCP share info about my child's health and treatment plan.	27	17	7	63%
My child's BHCP helps my child with other self-help support and community services.	29	19	6	66%
My child's provider and care team help my child get health care prevention screenings.	25	20	3	80%
My child's provider and care team teach my child to take care of his or her health.	27	21	3	78%
My child's provider and care team have my child's health history to make the best decisions about my child's treatment plan.	29	26	1	90%
Patient rights				
My child's BHCP treats my child with respect.	29	28	1	97%
My child's BHCP is sensitive to who my child is – including race, religion, ethnicity, gender identification, language, and/or disability.	29	25	2	86%
My child's BHCP cares about how my child's culture affects my child's health	29	25	2	86%
My child's BHCP makes sure my child gets health care in a language that works for my child	29	26	2	90%
Member services and assistance				
My child's health plan staff is friendly and helpful.	28	21	7	75%
My child's health plan helps me with the information I need to get my child's care.	29	25	2	86%
I would tell others to use my child's health plan.	29	26	0	90%
Overall rating of behavioral health care provider				
I would send my friends or family to my child's BHCP.	29	24	0	83%
The office staff is polite and helpful.	29	22	5	76%
I am pleased with the behavioral health care services my child receives.	29	23	0	79%

Figure 2 Mercy Care Child Demographics

Analysis of respondent profile provides insights into the utilization of healthcare services provided. The following figures provide an overview of the parents or who responded for the child and the age and gender of the child.

Mercy Care Child Survey responses are as follows:

- Strengths:
 - The services my child gets helps him or her get along better with family and friends.
 - The services my child gets helps him or her feel better.
 - The services my child gets helps him or her do better in school, work or other daily activities.
 - My child's BHCP listens to and understands what my child says.
 - My child's provider and care team help my child get health care prevention screenings.
 - My child's provider and care team have my child's health history to make the best decisions about my child's treatment plan.
 - My child's BHCP treats my child with respect.
 - My child's BHCP is sensitive to who my child is – including race, religion, ethnicity, gender identification, language, and/or disability.
 - My child's BHCP cares about how my child's culture affects my child's health
 - My child's BHCP makes sure my child gets health care in a language that works for my child
 - My child's health plan helps me with the information I need to get my child's care.

- I would tell others to use my child's health plan.
- I am pleased with the behavioral health care services my child receives.
- Opportunities:
 - My child's BHCP helps my child with other self-help support and community services
 - My child's BHCP and PCP share info about my child's health and treatment plan.
 - My child sees his or her BHCP and regular doctor at the same location

Qualitative Analysis

Through Mercy Care's analysis of the results, potential factors contributing to the results may include:

- Members may not realize that the BHCP and PCP communicate and do not discuss their PH issues with their BHCP.
- In general people do not respond to surveys as noted by survey response rate of 6.9%

Opportunities for Improvement

Brainstorming or analysis does occur in collaboration with specific departments, BH managers and staff, Marketing and Member Communications, Office of Internal and Family Affairs (OIFA), Adult and Childrens Systems of Care, Provider Relation and the CLAS committee. Recommendations for interventions and plans for implementation are included.

Table 3: Opportunities for Improvement (Both adult and children)

Opportunities for Improvement	Action Plan/Responsible Person
Share member experience data with the Quality Improvement Committee	Gather feedback from the committee
Share member experience data with the Member Advocacy Council	Gather feedback from the committee, OIFA team will be sharing information on the family run organizations at a children's provider meetings
CLAS committee recommended adding a question assessing member's culture	Cultural Questions were added and received positive responses on both the Adult and Children's surveys
Increase number of Integrated clinics	Working with Networks to gather number of Integrated clinics
Alert members of the survey results	Post survey results to member website
Alert Providers of the survey results	Post survey results to provider website

Re-Measurement

The survey will be conducted annually with re-measurement and comparison to previous survey findings occurring in 2023.

Conclusion

The objective of conducting and analyzing this survey was to obtain information regarding member experiences with utilization of behavioral health services and identify opportunities for improvement, and this objective has been met.

Appendix I: Member Survey Tool

Adult Survey Tool

HEALTH CARE SERVICES SURVEY

We want to hear from you about the behavioral health care services we offer to you. Behavioral health care includes therapy and treatment for mental and emotional health. This also includes therapy and treatment for drug or alcohol use.

A Behavioral Health Care Doctor or Provider (BHCP) can be a Counselor, Therapist, Psychologist, Psychiatrist, or Nurse Practitioner.

Please mark an answer for each question. If the question doesn't apply to you, mark it N/A.

ENCUESTA DE LOS SERVICIOS DEL CUIDADO DE LA SALUD

Queremos saber de usted acerca de los servicios de cuidado de la salud del comportamiento que le ofrecemos. La atención para la salud del comportamiento incluye terapia y tratamiento para la salud mental y emocional. Esto también incluye terapia y tratamiento para el uso de drogas o alcohol.

Un Doctor o Proveedor del Cuidado para la Salud del Comportamiento (BHCP por sus siglas en inglés) puede ser un Consejero, Terapeuta, Psicólogo, Psiquiatra, o Enfermero Practicante Médico.

Por favor marque una respuesta para cada pregunta. Si la pregunta no le aplica a usted, marque N/A.

EL CUIDADO DE SU SALUD

	Totalmente de acuerdo	De acuerdo	Soy neutral	Discrepar	Totalmente en Desacuerdo	N/A	
1. Yo tengo a un Proveedor del Cuidado para la Salud del Comportamiento (BHCP por sus siglas en inglés) en una buena ubicación.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
2. Yo puedo obtener una cita tan pronto que la necesito.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
3. Mi BHCP me escucha y entiende lo que le digo.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
4. Mi BHCP me explica las cosas en forma tal, que yo las pueda entender.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
5. Mi BHCP me trata con respeto.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
6. Mi BHCP es sensible con respecto a quién soy yo, incluyendo mi raza, religión, origen étnico, identificación de género/sexo, idioma, o discapacidad.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
6a. A mi proveedor BHCP le importa cómo afecta mi cultura a mi salud.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
6b. Mi proveedor BHCP se asegura de que yo reciba el cuidado para mi salud en un idioma que funcione para mí.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	
7. Yo veo a mi BHCP y a mi doctor regular en el mismo lugar.							
<input type="checkbox"/> Sí	<input type="checkbox"/> No	Totalmente de acuerdo	De acuerdo	Soy neutral	Discrepar	Totalmente en Desacuerdo	N/A
8. Mi BHCP y mi doctor regular comparten información sobre mi plan de salud y tratamiento.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Mi BHCP me ayuda con otros servicios de apoyo de autoayuda y comunitarios.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

A1007 NIRD2024 04

	Totalmente de acuerdo	De acuerdo	Soy neutral	Discrepar	Totalmente en Desacuerdo	N/A
10. Mi BHCP y equipo de atención incluyen papeles de apoyo, como servicios de apoyo por compañeros, en mis opciones y metas de tratamiento.	<input type="checkbox"/>					
11. El personal de la oficina es amable y de gran ayuda.	<input type="checkbox"/>					
12. Mi BHCP trabaja en mi plan de tratamiento conmigo, con mi familia y con mi equipo de atención.	<input type="checkbox"/>					
13. Mi BHCP habla conmigo sobre mis medicamentos y los riesgos que éstos puedan presentar.	<input type="checkbox"/>					
14. Mi BHCP me ayuda a llevarme mejor con mi familia y amigos/as.	<input type="checkbox"/>					
15. Mi BHCP me ayuda a desempeñarme mejor en la escuela, el trabajo u otras actividades cotidianas.	<input type="checkbox"/>					
16. Mi BHCP me ayuda a sentirme mejor.	<input type="checkbox"/>					
17. Yo enviaría a mi familia y amigos a ver a mi BHCP.	<input type="checkbox"/>					
18. Yo estoy contento/a con mis servicios para la salud del comportamiento.	<input type="checkbox"/>					
19. Mi BHCP me ayuda a obtener las revisiones de prevención del cuidado de la salud que yo necesito.	<input type="checkbox"/>					
20. Mi BHCP y equipo de atención me enseñan cómo hacerme cargo de mi salud.	<input type="checkbox"/>

Tell us what matters to you.

Dear <<Name>>,

Do we offer services that are helpful to you? Let us know by filling out the brief survey. It's about the behavioral health care services we offer to you. Your answers will let us know if your needs are being met. We'll use your answers to improve your care.

Behavioral health care services include therapy and treatment for mental and emotional health. This also includes therapy or treatment for drug or alcohol use. These services come from a Behavioral Health Care Doctor or Provider (BHCP). A BHCP can be a:

- Counselor
- Therapist
- Psychologist
- Psychiatrist
- Nurse Practitioner

We want to hear from you

Simply mail your completed survey to SPH Analytics in the prepaid return envelope. It doesn't need a stamp. SPH Analytics is an independent company managing the survey.

Your answers are private. Your doctors will never see your answers. The survey is voluntary, and your answers will not change your benefits or services.

Have questions?

Just call SPH Analytics at 1-800-588-1659 or TTY/TDD 711 from 9 a.m. to 9 p.m. CDT. They're happy to help. Thank you for taking the time to fill out the survey.

Sincerely,

Mercy Care

Appendix III: Telephone Survey Tool

Adult Telephone Survey Tool

Hello, may I please speak to NAME IN SAMPLE?

Hola. ¿Me permite por favor hablar con NAME IN SAMPLE?

When connected say:

Hello, I'm _____ from SPH Analytics, a national survey opinion research company. I'm calling on behalf of Mercy Care. We are calling to ask you about the behavioral health care our health plan offers to you.

Behavioral health care services include therapy and treatment for mental and emotional health. This also includes therapy or treatment for drug or alcohol use. These services come from a Behavioral Health Care Doctor or Provider (BHCP). A BHCP can be a:

- Counselor
- Therapist
- Psychologist
- Psychiatrist
- Nurse Practitioner

You may also see a Primary Care Doctor or Provider (PCP). A Primary Care Provider is a provider you see for physical health care. This includes health check-ups or routine care.

Hola, soy _____ de SPH Analytics, una compañía nacional de encuestas de opiniones. Estoy llamando a nombre de INSERT HEALTH PLAN NAME. Nosotros deseamos que usted reciba la mejor atención para la salud del comportamiento.

Los servicios para el cuidado de la salud del comportamiento incluyen terapia y tratamiento para la salud mental y emocional. Esto también incluye terapia o tratamiento para el uso de drogas o alcohol. Estos servicios los provee un Doctor o Proveedor de Cuidado para la Salud del Comportamiento (BHCP por sus siglas en inglés). Un BHCP puede ser un:

- Consejero
- Terapeuta
- Psicólogo
- Psiquiatra
- Enfermero Practicante Médico

Usted también puede ver a un Doctor o Proveedor de Cuidado Primario (PCP). Un Proveedor de Cuidado Primario es aquél proveedor a quien usted ve para el cuidado de su salud física. Esto incluye revisiones de salud o atención de rutina.

IF CALLBACK, SAY :

We spoke before. You said this is a good time to take this survey.

Nosotros hablamos antes. Usted dijo que éste sería un buen momento para contestar esta encuesta.

When connected say:

Hello, I'm _____ from SPH Analytics, a national survey opinion research company. I'm calling on behalf of Mercy Care. We are calling to ask you about the behavioral health care our health plan offers to your child.

Behavioral health care services include therapy and treatment for mental and emotional health. This also includes therapy and treatment for drug or alcohol use. These services come from a Behavioral Health Care Doctor or Provider (BHCP). A BHCP can be a:

- Counselor
- Therapist
- Psychologist
- Psychiatrist
- Nurse Practitioner

Hola, soy _____ de SPH Analytics, una compañía nacional de encuestas de opiniones. Estoy llamando a nombre de Mercy Care. Le llamamos para preguntarle sobre la atención de salud del comportamiento que nuestro plan de salud le ofrece a su hijo.

Los servicios para el cuidado de la salud del comportamiento incluyen terapia y tratamiento para la salud mental y emocional. Esto también incluye terapia y tratamiento para el uso de drogas o alcohol. Estos servicios los provee un Doctor o Proveedor de Cuidado para la Salud del Comportamiento (BHCP por sus siglas en inglés). Un BHCP puede ser un:

- Consejero
- Terapeuta
- Psicólogo
- Psiquiatra
- Enfermero Practicante Médico

IF CALLBACK, SAY:

We spoke before. You said this is a good time to take this survey.

Nosotros hablamos antes. Usted dijo que éste sería un buen momento para contestar esta encuesta.

(IF NOT A GOOD TIME, SAY):

When would be a good time for us to call you back?

¿Cuándo sería un buen momento para que le volvamos a llamar?

SELECT LANGUAGE FOR INTERVIEW. ASK WHICH IS PREFERRED IF NOT CLEAR.
